

Resolution Name: Innovate Public Education for a Competitive Texas

Submitted and adopted by County Convention, Rusk, County, Texas,  
Congressional District 1, on March 29, 2008

Resolution No.(a5)

Resolved, that the Republican Party of Texas continues its support of public education, urging that a significant percentage of state funding for primary and secondary education go directly to Texas parents in the form of a (per student) voucher that will either financially support the government-owned school chosen by the parent or offset private school tuition, without interfering with the parent's selection of school.
